

Clients of the laboratory consider analysis time of utmost importance. We at Analytical Services feel the quality of the analysis is the most important factor but with that in mind we agree with our clients, that the analysis time should be as short as possible. Our objective is to accommodate both objectives.

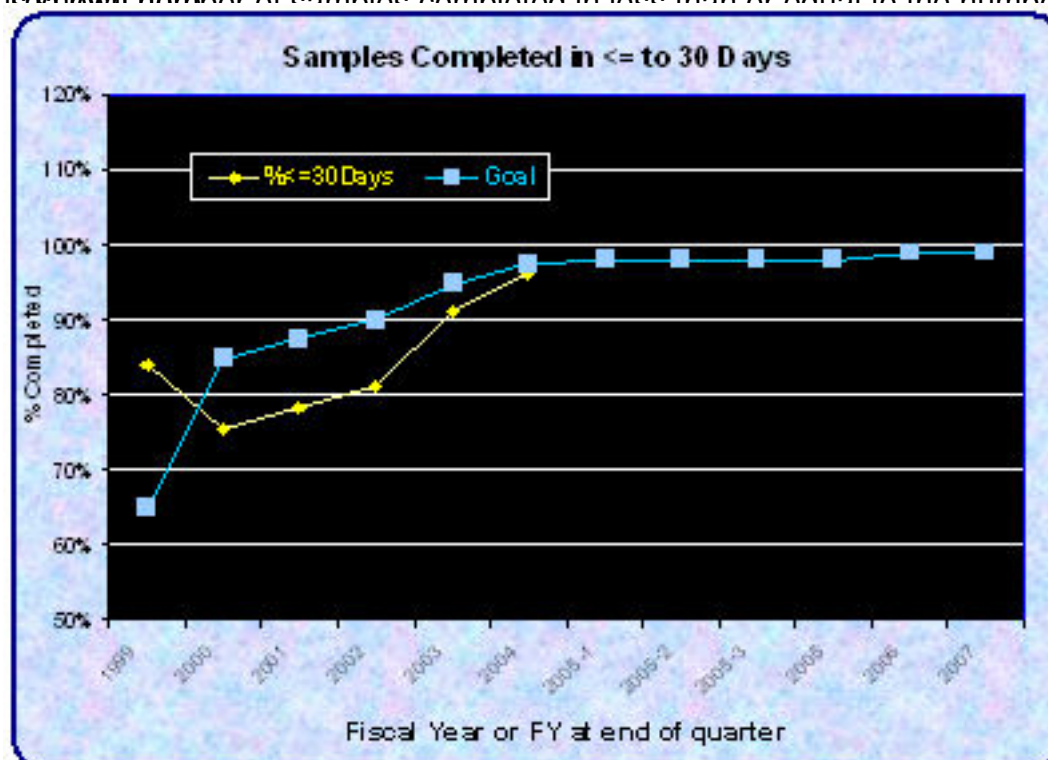

Analytical Services' goal for analysis time (sample turn-around-time) from sample receipt to completion is to have 97.5% of all samples completed within 30 days of receipt by the end of fiscal year 2006. We anticipate we will be completing 70% of all samples within 7 days of receipt by the time we achieve his goal in 2006. The following three graphs show the lab's progress since fiscal year 1999.

This chart shows the number of samples completed within the designated day ranges during FY 2004.

Estimated number of samples completed in less than or equal to the number of days for FY 2004

For each day, the percent of samples completed in less than or equal to 30 days of receipt

for each day
