

The analyses are representative of those requested but the list is not all-inclusive. You should contact the lab at (307) 742-2984 for a price quote and sampling instructions prior to submitting samples.

| Proximate Analyses  |  | Elemental Analysis | Other Analyses            |
|---|--|--------------------|---------------------------|
| Ash   |  | Calcium            | Beta Carotene             |
| Fat, Crude  |  | Iodine             | Cyanide                   |
| Fiber, Acid Detergent   |  | Magnesium          | Drugs in Commercial Feeds |
| Fiber, Cellulose  |  |                    |                           |
| Metals (Trace Levels) - Copper, Iron, Manganese, Molybdenum, etc. |  |                    |                           |
| Lignin  |  | Phosphorus         | Potassium Nitrate         |
| Moisture  |  |                    | Salt                      |
| Protein, Crude  |  |                    | Sugar as Invert           |
| Protein from non-protein nitrogen (NPN)                           |  |                    | Vitamin A                 |
