DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This Section 24(c) SLN label and the Section 3 package label for ZP® AG Oats (EPA Reg. No. 12455-102-3240) must be in possession of the user at the time of application. All applicable directions, restrictions, and precautions on the package label and on this SLN label must be followed.

Use Restrictions:
For control of Richardson’s ground squirrels (Spermophilus richardsonii) in alfalfa, wheat and barley. All applications must occur shortly after a cutting of the hay, and/or prior to the next growth’s attaining a length of 2 inches. Alfalfa forage from treated areas must not be harvested until it reaches maturity.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep all other persons out of the treated area during this application.

Application Directions:

Pre-Baiting
When bait is to be used to control Richardson’s ground squirrels, pre-baiting with untreated steamed crimped oats at a rate of 6 lbs. per acre 2-3 days before ZP® AG Oats is applied is likely to enhance acceptance of the toxic bait.
**Broadcast Baiting**
This product may be broadcast by air or ground-driven dispensing devices. Apply at a rate up to 10 lbs. (0.2 lbs. active ingredient) per acre. Make only one application per year. A maximum of 20 lbs. (0.4 lb. active ingredient) per acre may be applied per year. Do not apply by air when wind velocity exceeds 10 mph. Do not apply in piles or permit piles to be performed by equipment.
